WHAT IT DOES

Search for help. Find VSOs, accredited representatives, attorneys, claims agents, medical providers, funeral homes, honors coordinators, and state/local resources.

Prepare before calls and appointments. Use C&P practice prompts, rating and pay calculators, benefits-by-rating guidance, CHAMPVA/TRICARE call scripts, funeral honors planning, and form libraries.

Keep control of personal records. Use the desktop app for live read-only VA.gov snapshots, secure local vault storage, packet exports, and planning tools that keep sensitive data on the user's computer.

Use VA.gov with better context. Install the Chrome or Edge extension to display claim-status detail in a popup or sidebar while signed in to VA.gov.

WEBSITE TOOLS

VSO & Reps Search

Search accredited representatives, attorneys, claims agents, county VSOs, state veterans offices, recognized organizations, and reviewed helper profiles.

CHAMPVA & TRICARE Provider Search

Search medical provider leads by coverage mode, state, category, city, provider name, NPI, and specialty. Use scripts to verify assignment, network, referral, authorization, and billing before care.

Death & Burial Benefits

Search funeral home leads and military funeral honors coordinators, plan DD214/records requests, and prepare family call scripts.

Crisis Help

Fast guidance for 911, 988 Press 1, text 838255, online chat, Military Crisis Line options, family/responder wording, and local emergency-care resource lookup.

C&P Practice Exams

DBQ-informed practice sets help users organize truthful recall, symptoms, treatment history, functional impact, and questions before exams.

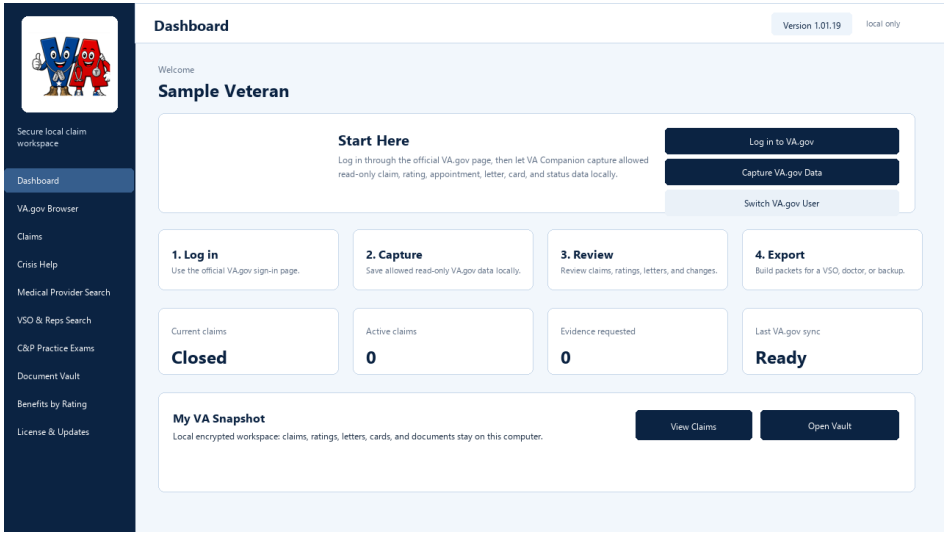
Benefits, Forms, News, and Community

Benefits by rating, rating/pay calculators, Chapter 35, DIC, TERA, claim forms, VA news, FAQ/knowledge base, and public-read/member-post chat rooms.

DESKTOP APPLICATION

A private Windows workspace

Current release: VA Companion Desktop 1.01.19. Free for registered VACompanion.us members.



LIVE CLAIM AND RATING SNAPSHOTS

After sign-in through the official VA.gov browser session inside the app, VA Companion can capture allowed read-only claim, rating, letter, appointment, prescription, card, and status data that VA.gov already returns to that user's session.

SECURE LOCAL VAULT

The local workspace database is opened with SQLCipher encryption. The database key is generated locally and protected by Windows DPAPI for the current Windows user.

WHAT STAYS LOCAL

VA Companion does not upload VA.gov credentials, MFA codes, cookies, tokens, claim snapshots, or local vault documents to VA Companion servers.

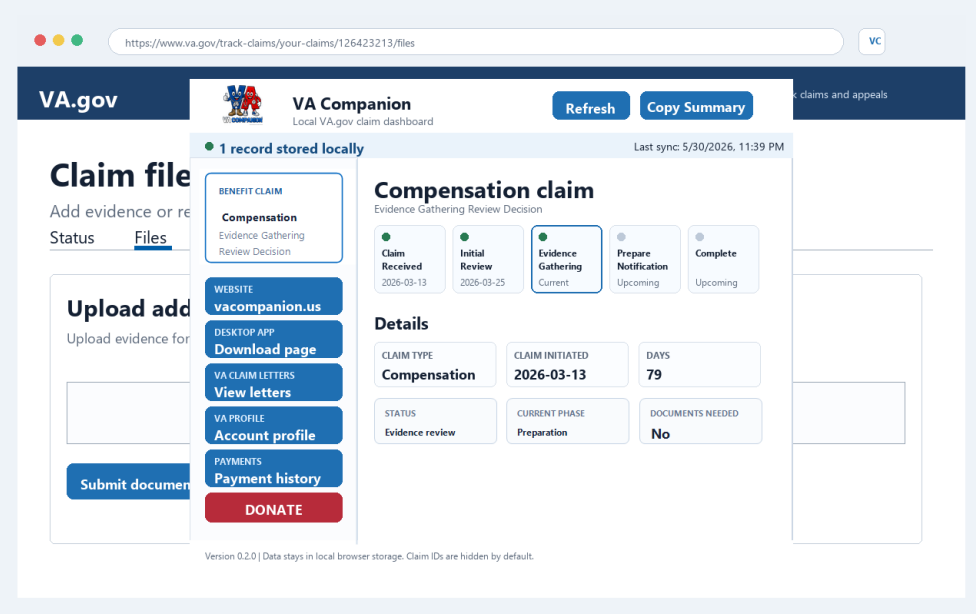
PACKETS AND LETTERS

Build personal statements, buddy letters, condition packets, CHAMPVA paperwork plans, appointment packets, and export bundles for a VSO, doctor, attorney, claims agent, or personal records folder.

BROWSER EXTENSIONS

VA.gov claim-status dashboard

Published for Chrome and Microsoft Edge.



Chrome and Microsoft Edge

The Chrome extension has been reviewed and approved by Google. The Microsoft Edge extension has been reviewed and published by Microsoft.

When signed in to VA.gov, the extension can display supported claim and appeal details in a local popup or side panel. Captured extension data stays in browser extension storage and is not sent to VA Companion servers.
